

## LOANS MADE BY E. C. CURTIS TOTAL OVER \$52,000,000

### This is Disclosed by Evidence Presented By State Friday

(By The Associated Press)  
WAUKEGAN, Ill., May 19.—Reducing to bare figures their mass of documentary evidence consisting of memoranda, cancelled notes and drafts of Armour & Co., and Swift & Co., the prosecution tonight at the close of the fourth week of the trial of Governor Len Small disclosed that \$1,835,000 interest on packers' notes had been traced to the late Senator Edward C. Curtis and that total loans and renewals made by Curtis to the packers amounted to over \$52,000,000.

Counsel for Governor Small stood firm on the contention that whatever the amounts of the transactions between Curtis, his bank and the packers, it had no connection with the alleged conspiracy by which the governor, Lieutenant Governor Fred E. Sterling, the late senator and his brother, Vernon Curtis, are accused of having schemed to defraud the state.

Three witnesses took the stand today. They were: Frederick W. Croll, vice president and treasurer of Armour & Co.; Arthur Colby, assistant to Mr. Croll, and W. W. Sherman, assistant treasurer of Swift & Co.

A fourth witness Charles B. Charlette, deposit clerk in the First National Bank of Chicago was excused following an agreement between counsel to have photographic copies of bank records made and substituted for the regular books, which the bank objected to having impounded for the duration of the trial.

High Spots in Evidence.  
Objection by the defense to admission of the Armour and Swift records.

Testimony by Mr. Croll that he never knew Governor Small, never had any communication with him and saw him for the first time in court yesterday.

Testimony by Mr. Colby that cards of first entry of loans made by Armour & Co., were destroyed as late as September, 1921, three months after Governor Small, Lieutenant Governor Sterling and Vernon Curtis were indicted.

Objection by the defense to mutilated and changed condition of memoranda of Swift & Co.

A. A. Beablen, of defense counsel, declared that in some instances figures relating to interest amounts had been changed. The records were admitted when Mr. Sherman testified that he could explain all the changes and that they had been made under his direction.

Testimony by Mr. Colby that he never had heard of the "Grant Park Bank," the alleged fictitious institution which the prosecution charged served as a vehicle for transferring public funds from the state treasury to private loans made by Curtis, was struck from the records upon the objection of C. C. LeFors, chief defense counsel.

Mr. LeFors cross-examined the witness concerning notations which he drew from his pocket when he took the stand and from which Mr. Colby read in computing interest on loans.

## PROPOSED STEEL MERGER HAVING HARD SLEDDING

Youngstown Sheet and Tube Company Withdraws Friday

(By The Associated Press)  
NEW YORK, May 19.—The Youngstown Sheet & Tube company today withdrew from the proposed merger of independent steel companies leaving only five of the original seven companies in the combine.

The Lackawanna Steel company withdrew last week upon the completion of negotiations for its purchase by the Bethlehem Steel corporation.

While a statement of Thomas I. Chadbourne, counsel for the interested companies declared that conferences among the other five concerns are continuing to determine whether it is advisable to consider a consolidation of all or some of these companies, it is generally believed in the financial district that the proposed merger is off at least for the present.

Under the tentative plan agreed upon by Kuhn, Loeb & Co., bankers, and the executives of the interested companies, J. A. Campbell, president of the Youngstown company was to head the merger having been agreed upon as chairman of the board of directors and chairman of the executive committee.

Neither Mr. Chadbourne nor Mr. Campbell would discuss the reasons for Youngstown's withdrawal.

Mr. Campbell stated the action was decided upon after he had conferred with his board and the principal stockholders in this city and that the investigation of the department of justice into the proposed merger had nothing to do with it. He added that the Youngstown committee neither had received nor expected any offers to consolidate with any other companies, either by purchase, transfer of stock or otherwise. The five companies remaining in the combined Midvale Steel & Ordnance company, the Republic Iron and Steel company, the Brier Hill Steel company of America, the Inland Steel company and the Steel & Tube company of America.

The young man was taken into Squire Opperman's court and the case was continued. ## PREMIER GEORGE SAYS CONFERENCE HAD GOOD RESULTS

### Statesman Sees Hope in Discussions at The Hague

(By The Associated Press)

GENOA, May 19.—Premier Lloyd George in his valedictory before the final plenary session of the economic conference today said the Genoa weather had been sunny and gloomy and that some times there had been thunders but all had ended today in a blue sky.

"That is the history of the conference," he added. "We need all kinds of weather to make a harvest; and if you take a good look at the conference you will find we have garnered fine crops."

"These crops," Mr. Lloyd George listed as the coming meeting at The Hague, the pact for non-aggression and the reports of the finance, transport and economic commissions.

"If these reports were adopted," he said, "they would help to restore the prosperity to depleted Europe. These technical reports alone justified the existence of the Genoa conference but they must be incorporated into living practice—converted into gold."

The greatest interest and excitement centered on the question of the relations of Russia with the outside world and the assistance the world was ready to give to restore Russia and rescue its people from misery, the premier declared, adding, "It is a problem full of danger and difficulties. It is surrounded with a jumble of prejudices and wild passions."

"Let me say this about the conference and the way it debated the Russian question," said Lloyd George. "The discussions in themselves have demonstrated the value of the international conference. You might have imagined from some of the deliberations that we had come not to promote general peace but to organize a general Armageddon and if our discussions had been continued in that spirit most of us would have passed from the Palazzo Reale to the Camp de Santo. But it was discussion in an atmosphere of calm and quiet."

"For the first time Europe has faced that difficulty and not shirked it. Half your troubles vanish the moment you face them. We have decided to continue to face this problem in order to struggle thru, and that is the most courageous decision taken by this conference. We have not gone as far as the most sanguine of us expected, but we have gone further than the doubters ever hoped or wished us to go. There is no goal worth reaching which is as near as it appears to be to the hopeful nor as remote as it seems to the timid; and that is equally true of this objective."

Sees Hope in Future  
"We have a month for reflection on the difficulties we have had in this conference before we resume the discussions. I sincerely hope that month will be utilized with a view to discovering and suggesting a solution for those difficulties."

"I should like to say one word in respect to the Russian memorandum. We make no reply to it but we cannot allow it to pass without one sentence. I do not know what the effect of that memorandum was in Russia. But the effect outside Russia was disastrous. It produced reaction against spirit of settlement and if it were the last word to be uttered by the Russian government I should really despair of accomplishing at The Hague. I am referring to the eleventh of May memorandum.

"Europe and the world need the produce which Russia can contribute and Russia needs the accumulated wealth and skill which the world can place at its command. Russia cannot recover for a generation without that help.

"Europe is more and more filling up the gaps left by Russia. Russia needs more and more of the help which the world can give and is anxious to give. Either from pride or prejudice we have not in these discussions referred to this fact.

"If Russia is to get help, Russia must not outrage the sentiments, if they like, let them call them prejudices of the world. There is real sympathy for her condition."

## Believes Abolition of 12 Hour Day Near

(By The Associated Press)

WASHINGTON, May 19.—Confidence is held by President Harding it was declared today by an administrative spokesman that the conference last night with men controlling the steel industry had started a movement which would result in the abolition of the 12 hour day. The same confidence was not heard in certain labor circles. President Gompers of the American Federation of Labor issued a statement declaring the "meeting was typical of present day effrontery of big business that it should use the white house as a rostrum from which to give the country \* \* \* what the American people are accustomed to call 'bunk.' Judge Gary in his statement of what was accomplished," concluded Mr. Gompers, "that the steel industry intends to abolish the inhuman 12 hour work day when it gets ready and not before."

The white house view was that there was an almost unanimous sentiment among the steel men at the conference for a continuation of the three shift eight hour day which was put into force in some parts of the industry during the slack labor period which gave more men employment. The steel representatives it was said agreed with the president in principle that it was a good idea now to establish the 12 hour work day but that the greatest obstacle to this was to get the consent of the workers.

The explanation was made that when the tide of business was running high the workers showed a tendency to take on the 12 hour shift and make more money for themselves and some steel manufacturers reported that men were quitting the eight hour shift and joining the 12 hour work day program.

## MOB LYNCHES NEGRO THEN BURNS BODY AT TEXARKANA FRIDAY

Had Shot and Fatally Wounded Officer Resisting Arrest

(By The Associated Press)

TEXARKANA, Ark., May 19.—Members of a mob battering down the jail door with an iron beam tonight took from the Miller county jail, Arkansas, a negro, Hullen Owens, who today shot and fatally wounded R. C. Choate, Arkansas side, dragged him at the end of a rope until he was dead and afterwards burned the body in the downtown section of the city.

Choate was a police officer. Owens shot him in fleeing from the police, who had taken the negro to an alley in the hope of finding automobile accessories with which he was charged with having stolen. The officer captured Owens again.

Thousands of persons surrounded the jail but only a comparatively small number actually participated in the lynching.

H. M. Barney, judge of the Arkansas municipal court made an ineffectual plea to the men to let the law take its course.

The negro was dragged eight blocks, death resulting from strangulation. Twice the mob attempted to hasten the body to telephone poles but each time the mob cried "lets burn him" and the body was lowered.

The band was assisted by Floyd Short who sang a solo with Miss Florence Short as accompanist. Numbers also were given by the girls quartette of the high school. The Hi Y boys wish to express their appreciation to the band Mr. Short, the quartette and those who attended the concert.

## MORE SUSPECTS ARE ARRESTED IN LABOR BOMBINGS

### Chief Fitzmorris Asks for 1,000 Additional Policemen

(By The Associated Press)

CHICAGO, May 19.—With six new suspects under arrest tonight in connection with labor bombings which culminated in the killing of two policemen more than a week ago, police were attempting to determine whether boys or terrorists were responsible for the fire which last Tuesday night burned an incomplete seventy apartment building.

While the investigation proceeded a petition for writs of habeas corpus for the release of "Big Tim" Murphy and Fred Mader, labor leaders indicted with six others in connection with the slaying, was filed before Judge Miller in superior court and made returnable Tuesday.

Chief Fitzmorris appeared before a sub-committee of the city council finance committee and asked for 1,000 new policemen to augment the present force of about 5,000 men and to be put on duty immediately. A special council meeting will be held Tuesday to discuss the matter. No attempt was made today to present evidence to the grand jury which the state hopes will result in the indictment of four more persons in connection with the labor warfare. State's Attorney Crowe said that evidence probably would be presented on Monday when the state hopes to have its case completed.

Emmett T. Flood, general organizer for the American Federation of Labor who was taken in general roundup of labor leaders following the slaying of police men but was later released, appealed to Mayor Thompson today to investigate the wholesale raids and arrests.

The arrest of the six additional suspects followed questioning of Mrs. John Miller wife of the owner of the automobile from which the shots that killed the policemen were fired. Miller, according to the police has made an alleged confession naming Charles Daudauskis and "Floater" Stanley as the other men in the car.

Ten boys with their parents were questioned regarding reports that boys had been responsible for the fire in the apartment building.

## JURY FAILED TO AGREE IN HILLS CASE

No Decision Reached in Delinquency Proceedings Brought by Probation Officers.

A jury of six men heard the evidence in the delinquency proceedings brought in the county court affecting the children of Mr. and Mrs. Charles Hills, formerly of Lynville. The case was given to the jury about 11:30 o'clock Friday morning. As no agreement had been reached at 6 o'clock last night, Judge Samuel dismissed the jury.

The principal witness for the state was Miss Anne Fowler, county probation officer, who had visited the Hills home on a number of occasions. She related facts which led to her belief that the children should be declared delinquent.

Mr. Hills vigorously opposed this course and was represented by William E. Thomson as attorney. State's Attorney Carl E. Robinson appeared on behalf of the county.

If the jury had declared the children delinquent it would then have been the province of Judge Samuel to determine whether they should be left in the care of their father or placed under the authority of some other person.

## CHILE AND PERU DELEGATES MEET BUT LITTLE DONE

Work About as Fast as the United States Senate

(By The Associated Press)

WASHINGTON, May 19.—The Chilean and Peruvian delegation again exchanged opinions at a joint meeting today but adjourned until Monday without having fully joined in issue on any of the major problems.

As in the case of previous sessions the discussion is understood to have fallen short because of the different viewpoints on which the two groups predicated their arguments.

On the part of Chile the tendency is said to have been to direct the conversations along the line of fulfillment of Article three of the treaty of Ancon, which provided for a plebiscite to decide whether Tacna-Arica is to remain permanently under Chilean or Peruvian sovereignty.

Without replying categorically, the Peruvians are said to have placed considerable stress on their government's charges that Chile has violated the treaty in various ways and that "Chileanizing" processes have been in operation for many years in the disputed territory. How much longer the direct meeting of views will be delayed remained a puzzle tonight but one of the delegates predicted that the question would be defined early next week. When the delegates meet again on Monday they are expected to be in possession of fresh information and advice from their governments.

Despite the delegates' expressions of confidence that they will be able to compose their differences without outside help, The Associated Press was informed in an authoritative quarter that arbitration has entered into the discussions as a possible means of final settlement. One delegate was said to have suggested to his colleagues that there be an immediate discussion of arbitration in principle, the exchanges of opinion on that subject to proceed simultaneously with the effort for a direct and unaided agreement.

## COMMITTEE INVITES EDISON TO APPEAR

(By The Associated Press)

WASHINGTON, May 19.—An invitation to Thomas A. Edison to appear before the senate agriculture committee at an early date was forwarded today to the inventor's New Jersey home by Senator Norris. The invitation followed Mr. Edison's recommendations made informally last night to several members of that body that the government accept Henry Ford's offer for development of the government's nitrate and power projects at Muscle Shoals, Ala.

Mr. Edison's interest and personal knowledge of the project as well as his desire for their development attracted the committee's attention when he recently visited the Shoals district in company with Mr. Ford.

## THE MISSIONARY CONVENTION

A second day was profitably spent at Bethel A. M. E. church yesterday by the delegates to the missionary convention. Papers were read and discussed in a helpful manner and as there was little time left before the noon hour, Presiding Elder Brown turned the gathering into a regular old fashioned class meeting, or perhaps more properly an experience meeting during which a number present told of what God had done for them and what they meant to do for Him.

A fine dinner was enjoyed and the afternoon session was begun at 2:30 and the exercises were full of interest.

At four the delegates boarded automobiles kindly provided by good friends and visited Nichols park, the state institutions and various points of interest. Thus closed a successful and profitable gathering of faithful workers.

This is one of a series of lectures which the Woodson pastor is giving on this subject. The church has recently purchased a stereoscopic machine and various entertainments are planned for coming weeks.

## GIGANTIC PLOT TO ROB MAILS IS UNCOVERED

Postoffice Inspector Gets in With Men and Balks Plot

(By The Associated Press)

NEW YORK, May 19.—A gigantic postoffice holdup, surpassing in spectacularity and daring any of the recent registered mail thefts of the million dollar class would have been perpetrated at the city hall postoffice tomorrow but for the keen work of a postoffice inspector who grew a bad man's beard, consorted with the plotters and uncovered their scheme.

This was the statement today of postoffice inspector Doran in making public the details of the arrest of seven men—six of them present or past postoffice employees. He asserted that their capture would clean up the registered mail theft of July 8 when \$1,477,000 in liberty bonds bound for Washington were stolen from the mails; would aid in solving a heretofore undisclosed theft of \$40,000 in securities addressed to Watertown, N. Y., and might clear up the \$2,000,000 mail truck holdup in Lower Broadway last October.

Plans had been laid—and were to have been carried out in broad daylight—for the holdup and robbing of the registered mail section of the city hall station, thru which millions in securities flow daily from Wall Street, inspector Doran said.

The plotters visited the city hall station several times and planned their raid in great detail. Indeed, Inspector Doran said, several weeks ago they were ready to "pull" the holdup but had been deterred by the accidental presence of several inspectors which had led them to fear their plot had been discovered. It was the insurance of the date set for the holdup that sent police and postoffice inspectors on a round-up campaign last night.

The name of the inspector who uncovered the plot was withheld. He was one of sixteen inspectors it was said, who have been working their way for weeks into the confidence of the accused men—posing as a boastful fellow mail bandit.

Gets Self "Counted In"  
The bearded Doran was said, according to getting himself "counted in" on the proposed city hall station holdup and talked it over in detail with the others in his supposed "den" which he had wired with telephonic devices. The seven captives taken last night were confronted with transcripts of the telephonic record in the presence of the bearded inspector and some are alleged to have confessed.

The chief actor in the theft, Mr. Doran said, was Morris Steinberg, a 39 year old clerk in the registry department. Steinberg, according to the inspector had some means of ascertaining when the valuable packages were to come to the postoffice from the federal reserve bank. He knew in advance of the big shipment of liberty bonds which was made on July 18 and laid the pouch aside when it was delivered.

A few minutes later it is alleged, he took the pouch to a small room on the third floor where Edward Fogel, a confederate had been hiding. Tossing the pouch into the closet he stroled nonchalantly back to his post, leaving Fogel to rip it open, extract the package of bonds and leave the building.

Steinberg was suspected, but care was taken to make him think he was not and a short time later occasion was found to drop him from the service for a minor infraction of the rules. The inspectors continued to watch him and four months ago the bearded agent managed to scrape an acquaintance at the confectionery store he and Fogel had opened.

Taking a room in the lower east side as his "hangout" the inspector installed a speech-recording instrument and invited them to visit him. It was not long until he had met the other five men alleged to be members of the gang and was swapping their mail robbing exploits—while fellow inspectors recorded the conversations in an adjoining room.

Finally the gangsters let the "bearded gent" in on the city hall station plot—and the swoop came. Arraigned this afternoon the prisoners were held in bail ranging from \$5,000 to \$25,000 each.

record in the fact that the membership of the farm bureau has shown a decrease of just about 2 per cent. The figures are the more impressive by comparison with those from some other localities. In one Ohio county 1232 members signed up for the three year term. The second year 987 paid their dues and thus far on the third year the number has been less than 400. Counties in some other localities have met equally difficult conditions.

The records show that up to the present time 11,000 bills have been introduced in the house of representatives at Washington and it is that before the present session is closed in December that the total number of bills introduced will be 20,000.

It would be interesting to know just how many are introduced in good faith, and further, how many would be helpful to the people if they really became laws.

The comparative list of tax rates in Illinois cities which appears elsewhere in this issue is well worth perusal. The average Jacksonville resident has an idea that he is very much burdened with taxation. Comparative figures show that there are very few cities in Illinois with as low a tax rate as that in Jacksonville.

Over in the state fair grounds at Springfield are scores of huge army trucks, assigned to the state by the federal government at the close of the war. Other trucks have been apportioned to different counties in the state, especially for road work. Decatur had one of the trucks and recently sent it back to Springfield with thanks. The maintenance cost was too much and it was found that it would be cheaper for the city to buy two light trucks than it was to maintain the one big truck.

It's easy to understand where some of the war time expenditures went.

**THE HOOVER COAL POWER PLAN**

This is the way the Manufacturers' News explains Secretary Hoover's plan for stabilizing the coal industry. Mr. Hoover has a plan of super-power survey to coordinate fuel consumption in industry by turning coal into electric energy at the mines, and by developing the 16,000,000 horsepower waterpower now wasted. By this project (1) entire coal industry would be stabilized, giving mine owners regular markets at steady prices; (2) miners would receive good wages and regular, full-time employment; (3) excess tonnage burden would be lifted from railroads; (4) regular and cheaper supplies of fuel, power and light would be secured. The Super-Power commission asserts that utilization of a million and a half horsepower will be equivalent to saving 50,000,000 tons of coal annually, and that manufacturing, transport, heating and lighting industries will be benefited by the regularity of the conditions created.

**THE STOCK OF GOLD**

(New York Journal of Commerce)  
After approaching that figure for some time past the gold stock of the Federal Reserve banks has now passed \$3,000,000,000. It has increased only slowly during the past few weeks, but the advance has been persistent, nevertheless. There was some wavering for a short time when the treasury issued its gold coin, but it was only transitory and the accumulation process was resumed. What shall we do with this gold? The question grows more and more urgent as the European countries lose more and more specie and approach more and more nearly to a pure and credit basis. We now have not only much more than our share of the gold of the world, but much more than we could conceivably be entitled to on any reasonable basis of division that might be devised. So long as we keep it the restoration

## MANY ATTRACTIONS AT CAMP ROOSEVELT

Local Lads Plan to Attend Summer Camp at La Porte, Indiana.

Several Jacksonville boys are making plans to attend Camp Roosevelt the National Boys Camp near LaPorte, Indiana. Major F. L. Beals, camp commandant, explains the Camp Roosevelt idea as follows: "To take the boys out in the fresh air, fill his vacation period with useful and instructive activities, let him be acquiring information and knowledge, and all the time be teaching him how to take care of himself, how to become self-reliant, how to rub elbows with other fellows on terms of equality, and teach him pride in self and pride in achievement."

What wholesome American boy would not travel in such an outfit? And to make it within reach of all, the cost is \$25.00 for three weeks, a little over a dollar a day. The expense for the maintenance of the camp is contributed by public spirited Chicago business men who yearly finance this splendid work.

The new location in Indiana will enable boys throughout the middle west to enroll for attendance at the camp. It is expected that at least a thousand boys will be in camp this summer. Training will be divided into two periods of three weeks each.

Camps open on July 5. Applications will be accepted at the Chicago board of Education, under whose auspices the camp is being conducted with Major Beals in direct command.

## INSTITUTE CAMP MAY BE LOCATED HERE

Effort Being Made to Secure Epworth League Institute as Permanent Attraction at Nichols Park.

The Illinois Methodist conference Epworth League Institute may be a summer attraction at Nichols park if the plan which the Chamber of Commerce has formulated is carried to completion. The institute this year is being held at Shelbyville July 19 to 24.

If the institute is brought to this city it will mean the annual visit of more than three hundred young people, who will spend several days here each year. The facilities which Nichols park offers are ideal for such a gathering, and it is believed that the inducement offered by Jacksonville will be equal to that of any other city.

A committee of ministers which has charge of the institute visited Nichols park during the Illinois Conference meeting here last fall and were favorably impressed by the advantages offered. It was too late at that time to change the place of meeting this year, but a committee was appointed to seek to bring the assembly here next year, with the hope that this may be made the permanent meeting place.

The committee which has this matter in hand includes Thomas V. Hopper, A. C. Metcalf and Harlan Williamson. They will visit the institute this year and will do everything possible to bring about the desired result.

## AGED GREENE COUNTY RESIDENT IS DEAD

Mrs. Virginia Linder Passed Away at Age of 77 Years—Churches Plan Vacation Bible School.

WHITE HALL, May 19.—The death of Mrs. Virginia Linder, who was 77 years of age last December, removes one of the pioneer women of Greene county, the end coming at 10:30 Thursday A. M. in the home of her son, W. C. Linder, at Patterson, where she had made her home the greater part of the time since the death of her husband, J. M. Linder, three years ago next August. She had been in failing health for several years, and for the past ten weeks had been bedfast, the cause of her death being bright's disease. She was a native of Lincoln county, Tennessee, coming to Greene county when a child, locating with her parents on a farm near Patterson. In 1862 she and J. M. Linder, then a resident of White Hall, were married, and they left at once for the mining fields of Montana with the Hicks party, which was conveyed by ox teams, six months being consumed in going through to their destination. There they remained during the Civil War, and upon their return located at Patterson, where they continued to reside since then. There are two children, W. C. Linder of Patterson and Mrs. E. C. Adams of Glasgow.

Funeral services will be conducted in the W. C. Linder home at Patterson at 2 p. m. Saturday, the discourse being delivered by Rev. W. R. Johnson of Winchester, and the burial will be in Pine Tree cemetery.

All the churches are to join in the Daily Vacation Bible school beginning the second week in June. This has been decided by the Ministerial Association. The idea was introduced last summer by Rev. Lee A. Hanchett, pastor of the Presbyterian church, with a splendid record of attendance and interest. The broadening of the idea to include all the churches means a very important summer session, and the classes will be divided among all the churches in order to insure adequate accommodations, the studies being arranged for all ages, taking up much the line of kindergarten work for the children. This is distinctly an eastern conception, and was brought here by Rev. Hanchett, who finds that the response to the idea at White Hall is more than one church can well manage.

## FROM GIRLHOOD TO WOMANHOOD

Woman Relied Upon Lydia E. Pinkham’s Vegetable Compound

Emporia, Kansas.—“I began using Lydia E. Pinkham’s medicines years ago when I was a girl. For several years I had severe pains at menstrual periods, making me very weak and interfering with my regular duties. I tried several remedies, without obtaining relief. I was induced to try Lydia E. Pinkham’s Vegetable Compound by friends and it restored me to normal health. I often have occasion and do recommend your Vegetable Compound to my friends who have troubles similar to my own. You may use these facts as a testimonial.”

—EVA ALDRICH, 218 Union St., Emporia, Kansas.

There are many women who first used our Vegetable Compound during their girlhood days. They found it a valuable help during trying periods. In later years they use it whenever they feel those annoying symptoms which women often have.

## WOMAN’S COLLEGE SENDS OUT FOLDER

Shows Religious Activities of Students—Will be Sent to Methodist Ministers Throughout Illinois and Surrounding States.

Illinois Woman’s College has published a folder setting forth the religious activities of the college. This folder will be sent to the different churches in Illinois and surrounding states, and thru the ministers it is hoped that the people at large will become more familiar with the Christian work done by the students of the local college.

The folder shows pictures of groups of girls engaged in different phases of religious life at the college. Twenty girls teach Sunday school classes in Jacksonville. Another group of pupils takes happiness to the pupils at the State School for the Blind, by going over Sunday to read to the children; 92 students are registered in the classes in English Bible; practically all the students belong to the mission study classes which are conducted for a period of weeks during each college year. A large group of girls is engaged in social work and they go to the Old People’s Home to read and sing for the residents, and also visit the homes of the poor in the city to give what aid they are able. Eight girls have already volunteered this year for mission work in foreign lands after leaving college.

The Young Woman’s Christian Association numbers about two hundred girls as members and this organization is an important part of the life of the school.

EVEN A SHORT SHOPPING TRIP EXHAUSTED HER

But Now She Never Feels Worn Out Any More, Thanks to Tanlac, De-chloras Mrs. C. D. Till, of Chicago.

"Since taking Tanlac I feel the flow of health to my very finger tips," said Mrs. C. D. Till, 4335 N. Emerald Ave., Chicago, Ill. "For a long time I was subject to headaches so bad I had to give up my housework and lie down. My appetite was so poor I never wanted to eat and my stomach was awfully upset. I could get no restful sleep and was so weak and nervous even a short shopping trip downtown would tire me out completely. "My sister in Dubuque, Iowa, used Tanlac with such good results I tried it myself, and now I am never worn out by my house work, sewing, or a trip to the busy shops in the Loop. I think so much of Tanlac that I tell everybody about it."

RILEY'S POEMS THEME FOR FINE ADDRESS

A. MacArthur Friend of Hoosier Poet Heard by Rotarians Friday.

A. MacArthur of Traverse City, Mich., delighted Rotarians at their luncheon Friday noon as he gave an intimate picture of the friendly spirit of James Whitcomb Riley and quoted some of the Hoosier Poet's best known verses.

In the earlier part of the program. Mr. Clayton Quast, head of the voice department of the Conservatory of Music, sang a group of songs which the Rotarians greatly appreciated. Mr. Quast was in fine voice. He was accompanied by Willard Wesner.

Guests of the day were Judge M. T. Layman, Marcus Hulet, Dr. R. V. Brokaw, newly appointed all-time health officer and Major L. G. Beckwith of Bay City, Mich. Major Beckwith is a Rotarian and voiced the thought that the Rotarian movement is destined to grow, particularly because it concerns itself with young life and the effort to make conditions better for boys and girls.

A statement with reference to the work of Our Saviour's hospital and its development during the past 26 years was made by William T. Harmon with special reference to the campaign for funds which is about to begin. Mr. MacArthur was intimately acquainted with the Indiana poet and in a very clever way told incidents and quoted verses to prove the beauty of the Riley spirit and the purity of his thought. The Rotarians were sorry that the time was not available for a longer program as they as they were thoroughly pleased with Mr. MacArthur's presentation of his theme "Good Fellowship."

WIDE RANGE SEEN IN CITY TAX RATES

Comparative Figures Indicate Jacksonville Rate Lower Than In Most Illinois Cities.

The tax rate in Jacksonville this year was \$6.73, a figure that the average property owner feels is exceedingly high. ### The New Addition to Our Saviours Hospital

There is Needed Campaign Begins Monday, There is Needed

 In Jacksonville Only

## Mayor of Jacksonville Endorses Hospital Campaign

Hospitals are as essential to the growth and development of the City, as are mercantile industries. Our Saviour's Hospital has an investment of over a third of a million dollars. The building of it has given employment to many Jacksonville people.

Its operation will not only be for the good of suffering humanity but will give employment to many, and will bring many people to our City.

This is the first appeal in the history of twenty six years that this institution has ever made, and I am sure the citizens of Jacksonville will meet its demands as it always has in any emergency.

E. E. CRABTREE,  
 Mayor.

## The New Addition

Nearly everyone in Jacksonville is familiar with the erection of the new addition to Our Saviours Hospital and many already have visited and inspected the building.

This addition has cost to date the huge sum of \$250,000 and will be ready soon to receive patients. But, before this can be done the building must be equipped—the rooms for patients furnished, the operating rooms and other equipment needed for this most modern of hospitals must be supplied. \$25,000 is required for such purpose.

## MORE FACILITIES NEEDED

There is an urgent need for more hospital facilities and no person knowing and realizing just how true is this fact will hesitate for a moment to do his share towards providing a suitable place for the care of the injured, and the suffering sick.

At the present time and for several years past the capacity of Our Saviours Hospital was forty beds, and for a long time cots and beds have been placed in the hallways, surrounded by screens, to accommodate those persons most urgently in need of hospital attention. Yet in spite of every endeavor to provide accommodations many each week must be turned away.

The new addition to the hospital will provide sixty more beds, thoroughly equipped and modern operating rooms, X-Ray and other laboratories, a beautiful roof garden

where in pleasant weather the convalescent may more rapidly regain health and strength.

## OF HISTORICAL INTEREST

The ownership and operation of Our Saviour's Hospital rests with the society of Sisters of the Holy Cross. The original hospital was established by them about twenty-six years ago. At that time a systematic plan of saving was started, having in mind the growing needs of the community. About one year ago it was found that this fund totalled \$27,000., and it was also found that there could be no further delay. So, with the ground on which the new building stands and \$27,000 in cash, the Sisters of the Holy Cross made their plans and negotiated the loan of sufficient funds to erect, all ready to be furnished and occupied, the beautiful and worthy monument dedicated to suffering humanity that stands today a realization of their many hopes, sacrifices, and long patient effort.

## HEAVY BURDEN UNDERTAKEN

The heavy burdens that the Sisters of the Holy Cross have so unselfishly assumed will be readily understood. Also, that the sooner the new building is furnished the sooner they will be able to provide for the demands daily made upon them for the care of the sick, and the sooner will the Sisters commence to realize something toward the reduction of their large obligation.

## ASKED OF THE PUBLIC

Remember, the public of Jacksonville is asked only to aid in the equipping of this new building, not primarily for the benefit of the hospital, although of course the furnishings bought will be in the ownership of the Society, but for humanity's sake.

## The Hospital a Community Asset

## RUTH MAY PLAY TODAY MAYBE

But Must First Get Landis' Permission—All Reserved Seats Are Sold For Game.

NEW YORK, May 19. —Baseball fans were talking tonight about the scheduled return of Babe Ruth from exile to the Polo Grounds tomorrow afternoon.

Reserved seats for the game have all been sold. Some of the bleacher bugs are likely to line up outside the gates before dawn to do for the world's series.

There's one little formality that must be carried out tonight, since the Babe's suspension is not automatically lifted tomorrow.

His bosses must send a polite telegram to Commissioner Landis inquiring if it will be all right for their swatter to go back to work. A reply must come from the commissioner before Babe can play.

The sight of him swinging the bat is just one of three extraordinary attractions that tomorrow's battle between the Yankees and the Browns has to offer.

Two other home run swatters will make their 1922 bow to New York fans at the same time, One

is Kenneth Williams who is nearly doing as well in the four base hit production line as the Babe was a year ago. Already he has 11 to his credit and that is a good start.

This time last season Babe had only 2 home runs on the slate. But Babe declares a cool indifference to the walloping by Williams. "Oh hell, quit," is the Yankee mauler's comment when he is asked what he thinks about the way this St. Louis chap is knocking 'em out. "He just hits homers in St. Louis," the Babe adds.

Williams is reported to have said that he is not straining to that he'd just as soon place a short drive where there's nobody to catch it as always to swing for a home run or nothing.

Manager Phil takes at a crack at which the Babe says about Kenneth.

"I don't want to take any credit away from Ruth but it is my honest opinion that if Williams could play 77 games at the Polo Grounds this season with that short right field stand as a target would make 75 home runs."

The third debut tomorrow will be that of Bob Meusel, banished from the game with Ruth.

## EUREKA MEETS ILLINOIS TODAY

Visitors Have Strong Team Again This Year—Has Been Runner-up to Knox Past Two Years.

Coach Harmon's Illinois College track team faces a hard job when it meets Eureka on Illinois field this afternoon.

For the last two years Eureka has been runnerup in the State Intercollegiate meet. While some of her stars of the last two years have graduated Eureka still has a team that is not to be sneezed at.

In Driver and Whittier she has two men who are almost sure point winners. Whittier takes part in the weights while Driver is a dash man.

Kirby, who holds the state college javelin record is also with the team again and may also take part in the discuss and shot put. Blauvelt, holder of the Illinois College Intercollegiate record for the mile is back in school again and will be here today.

Blauvelt is a Springfield boy and is said to be going fine this year. Illinois' distance runners will have to step to finish in front of him. He won the mile and two mile races in the Illinois Intercollegiate meet at Peoria in 1920.

Carrier was second in the broad jump last year. Kirby set a record for the javelin of 165 feet 6 inches with Whittier second. Kirby also was third in the shot put. Sutherland was fourth in the high jump and Rehg tied for first in the pole vault.

The probable entries of Illinois College for today are:

100 Yard Dash—Billings, Ellison.

120 Yard Hurdles—Farrell, Butler.

440 Yard Run—Rogers, Webber.

1 Mile Run—Ebre, Douglas.

220 Yard Dash—Billings, Ellison.

Half Mile—Frazer, Ehrstine.

220 Yd. Hurdle—Cully, Struck.

2 Mile Run—Douglas, Ifner.

Shot—Mellon, Dale.

Discus—Mellon, Roberts.

Javelin—Mellon, Landess.

Pole Vault—Hatfield, Best.

High Jump—Hatfield, Dale.

Broad Jump—Dale, Cully.

Blauvelt, Springfield boy, mile record in Illinois College Intercollegiate 4-46 4-5 made in 1917.

Won mile and two mile races in Illinois Intercollegiate meet at Peoria in 1920. Out of school last year.

## DECATUR H. S. PLAYS AT THE I. S. D.

The Game Will Be Played at the Illini Field at 3 P. M. Today.

The Decatur High School ball team will be the Illinois School's opponents on the ball diamond this afternoon. The Decatur boys are playing good ball. According to reports that they trounced the Springfield H. S. boys by the score of 3 to 1, and also beat the Blue Mount team.

George Carlson will be back in the pitcher's box for the I. S. D. The line-up may be as same as last Saturday's except the position of short stop vacated by Roy Friday, who quit school and went home. Capt. Massinkoff will fill in this position. The I. S. D.'s victory over the Missouri boys showed that the Illinois boys are improving steadily in fielding. They are hopeful of doing well in today's game. Mr. Clark will again umpire the game.

CHAMPAIGN, Ill., May 19.—With 400 prep school athletes racing to place three dashes and two hurdles events in both Class A and B, the preliminaries of the 28th annual intercollegiate track and field meet showed some close competition this afternoon.

Royer, Oak Park, won the 220 yard low hurdles in 27 seconds, while Yarnall, Oak Park, took the fifty in 5 4-5 seconds. Oak Park, Englewood, Evanston, University High of Chicago, Rockford, Deerfield, Champaign, Marion, Hyde Park and Springfield scored highest.

A close fight is expected tomorrow in Class B, between Forest, Greenfield, Wheaton, Toluca, Olney, Murphysboro, Carlinville and Dekalb for top honors. Bloomington, stepped the 100 yard dash in 10 2-5 seconds and won the 50 yard dash in 6 seconds.

Illinois also won from Notre Dame at baseball 11 to 3. Barnes pitching for the Illini while the visitors used Flavy, McGivney and Castner. Good playing was impossible because of the cold.

The Michigan nine practiced after the game in preparation for the contest with Illinois tomorrow.

## SPECULATIVE ACTIVITY IN STOCK MARKET

By Associated Press.  
NEW YORK, May 19.—Speculative activity in the stock market was revived on a comprehensive scale today chiefly as a result of easier money rates, eventually all forms of accommodation failing to lowest levels in almost five years.

Aside from cash loans which were freely obtained at 6 1/2 per cent, a 10 per cent day money loan was offered at 4 per cent and loans extending almost to the year's end were negotiated on a 4 1/2 per cent basis. A very large proportion of the day's funds came from interior sources, especially from England and the midwest, but the higher ratio of reserves reported in the weekly statement of the local federal bank spoke relaxed conditions at this center.

Steels, oils and motors were in the forefront of the day's broad operations at gross advances of 1 to almost 5 points. Outstanding individual issues embraced United States Steel and New Haven both at record quotations for two or more years and closing at net gains of 1 1/2 and 2 1/2 points, respectively.

Sales amounted to 1,735,000 shares. Movement of foreign exchanges were irregular on small dealings.

There was a decided broadening of the inquiry for Liberty bonds most of which were substantially better, several of the 4 1/2 approaching par. Total sales, (par value) aggregated \$18,493,000.

## REPORT WILL SAY

By Associated Press.  
NEW YORK, May 19.—Dun's tomorrow will say:

"Phases which usually mark periods of business expansion now stand out more clearly. Recovery from previous depression proceeding slowly and irregularly for many months, is steadily gathering momentum, and sentiment reflects the changed conditions. Different lines that had lagged while buyers waited are beginning to display renewed activity as revival of demand develops and a reversal of the price trend has been witnessed. With exception each week this month has disclosed an excess of advances in Dun's comprehensive list of wholesale quotations and premiums on prompt shipments of certain commodities demonstrate that some needs are becoming urgent. Conspicuous among the favorable features is the decisive turn for the better in the automobile industry where sales and output have increased substantially and building operations of magnitude have continued. With improvement also occurring in other leading branches of business despite labor troubles, the general outlook is distinctly of brighter promise altho not without elements of uncertainty."

Mrs. Mary E. Green, mother of Hugh Green, enjoyed a pleasant birthday surprise during the week. Mrs. Green is one of the two oldest members of the Pastor's Aid Society of the Methodist Church of Nashville, Ill. Recently on the occasion of the birth of the oldest member, the society celebrated the event and voted to record Mrs. Green similar recognition on the occasion of her birthday. Before the arrival of her birthday, she came to Jacksonville on account of the illness of her youngest grandson, William P. Green, son of Mr. and Mrs. Hugh Green.

When the time for her birthday came, the society followed out

its plan and she was surprised by a shower of birthday cards, and also received a large angel food cake and a beautiful bouquet of flowers, a part of which were sent by children of members. It is needless to say that she felt highly gratified with the remembrance and good wishes of these friends.

## MINISTER HAS HAD INTERESTING CAREER

Rev. Fleming Grey Born in Slavery has Been Preaching for Many Years—Tells Story of Life.

Reference was made to the oldest minister present at the recent missionary convention at the Bethel M. E. church. He is Rev. Fleming Grey and from him a Journal reporter secured his story which is given herewith and shows what a man can do under difficulties when he is determined.

I was born in Woodford county, Kentucky, about 1851. My father was Ned Grey and he and my mother were from Virginia and were the property of Mrs. Taylor. She was a kind hearted woman and wanted my parents to know something and not be kept down in ignorance so she sent them to a night school for a while but the slave powers thought it wouldn't do for the African to know how to read so the schooling was stopped.

My father learned the trade of a carpenter and hired his time from his owner and gradually bought his freedom and that of his wife and five children. I have my father's freedom papers at home. My mother had belonged to a man named John Shields and he let father build a house on his land. Shields owed a man named Edgers for a farm so Shields kidnapped my brother and me and sold us to Edgers who was known as a "nigger trader". In payment of the debt.

Edgers was a kind hearted man and said he would take us south along with his shipment and if he found men to buy us who would give us good homes he would sell us but if not he would bring us back. There seemed to be no way for us to avoid going as there were few who cared for a black man or stood up for his rights. Shields had eighteen beside us and they were mostly grown. At that time Kentucky was a great breeding ground for slaves to be sold in the southern market.

We were taken to Frankfort and then to Louisville and then shipped to Baton Rouge, Louisiana and out in a "nigger pen." Mr. Edgers let brother and me go out into town and told us if we found a man to whom we would be willing to be sold to let him know.

As I was sauntering about the town I saw a horse hitched to a buggy and tied to a post. I untied the hitch strap and held it in my hand and when the owner came out he saw me and asked if the horse was loose and I told him no and he asked why I untied him and I said I was holding him. He proved to be a doctor named Williams and a kind hearted man. He asked me about myself and I told him the whole story and he said Shields did very wrong.

Like Union Soldiers My master tried very hard to make me afraid of the Yankee soldiers who had come south at the beginning of the war but somehow I rather liked the blue uniforms. Gen. Lyon had captured Camp Jackson and I went there and joined the union forces. I became servant to Capt. M. L. Thompson of Co. C and in addition did something else for two other officers. I remember being in Rolla, Springfield, Wilson Creek and other places. I was servant to the captain and always carried with me an emergency outfit, bandages and the like in case he was wounded. The first lieutenant was killed in battle and many of the company I saw the battles of Pea Ridge, Wilson Creek, Ozark, Prairie, Cross Hollows. At Pea Ridge I took a gun from a man who had been killed and shot three times when they took it away from me and gave it to a man whose gun was out of order.

The captain was very good to me and gave me many privileges. In 1863 I left the employ of the captain and went to St. Louis and remained till I was fifteen years old. That year I went to Bunker Hill, Ill., to a Sunday school convention and was much pleased with it. I was converted. When I was nineteen I decided I wanted to learn to read and with what help I could get I applied myself to the 14th chapter of John and there learned to read the holy book.

A man named Best wanted me to go to school and I did go for two months and then had to stop. I got a job at Litchfield as cook and worked there some time and I felt a strong conviction that I should be a minister and one Sunday p. m. I promised my Maker that I would preach the word if He would show me the way. Something in me said "Go to Decatur" and with five dollars in my pocket I started out. In that place I found a colored man sweeping out a saloon and asked him if he could help me find a place to work for my keep and go to school. He said he had another job he could take and he would give me one of them and I prayed that it might not be the saloon and it was not. So I started in with pupils much smaller than I was but kept on and did the best I could. In due time I studied and passed several examinations, exhorter, licentiate and finally ordained minister and for many years have been doing what I could in the good cause.

The old gentleman's story was very interesting and he modestly refrained from saying anything at all boastful. He is yet very vigorous and bids fair to be in the harness for many years to come.

Mr. Tribble was riding on a gang plow when one of the wheels went into a hole and he was thrown to the ground. He fell in such a way that two of his ribs were broken and he also received some other injuries. The injured man was taken to his home and medical attention given him. The injury is a very painful one and will keep Mr. Tribble confined to the house for some time to come.

Donald, the five year old son of Mr. and Mrs. W. E. Douglas, residing two miles west of Franklin, fell from a fence at his home and broke both bones of his right arm near the wrist. The accident happened at about 11:30 o'clock Friday morning. Dr. F. H. Metcalf was called and set the injured member.

## WILL INAUGURATE BEAUTIFUL CUSTOM

Will be Designated as Candle Lighting Day—Observed at Alumnae Reunion and on Founder's Day.

A unique and beautiful custom is to be inaugurated at Illinois Woman's College this year in the form of the observance of what will be known as "Candle Lighting Day."

The first observance of this custom will be this year at the Alumnae Reunion and Supper, on Monday evening June 5th. At this time two lighted candles, one yellow and one blue, will light each table at the supper.

The other day of the year when this Candle Lighting is to be observed, is on Founder's Day, the 10th of October. A little leaflet explaining the custom has been prepared and will be sent out to all the former students of the college. The custom is simple and lovely and is explained as follows in the leaflet:

It is suggested that every year on the Monday of Commencement Week, which is always the first Monday in June, and also on Founder's Day, which is always the Tenth day of October, we observe the following simple but beautiful and suggestive custom:

Every former student of the Illinois Woman's College will place on the table for dinner or supper (the evening meal) two lighted candles—a yellow and a blue—in happy remembrance of the college and as a token of communion with every other former student. On these days the college itself will especially observe this Candle Lighting custom with yellow and blue candles at each table, and songs and toasts and loving greetings to all her absent girls.

"It is believed that every former student will gladly observe this custom wherever she may go or be, and that in any community wherever possible for two or more to get together at these times and in this way they will do so, and thus revive their college associations and memories and add to the pleasure of the day."

Many suggestions will probably occur in connection with place cards, with a variety of college sentiments—for instance the chorus of the college song would make a good place card—"O college dear, we love but thee And will be always true; Thy colors shall our ensign be, The Yellow and the Blue."

How far these little candles throw their beams; so shines the Illinois Woman's College through the world."

## BACK FROM THE ENCAMPMENT

Comrades L. Goheen, Alex Howard, Frank Wigdost, William Paschall, Mrs. A. P. Weber and Mrs. S. R. Armstrong have returned from the state G. A. R. encampment at Alton and all report a very enjoyable time. The principal addresses were made by Mr. Rathbone, a well known attorney of Chicago. The gentleman's father sat beside President Lincoln when the fatal shot was fired at the great emancipator in Ford's theater in Washington City.

The other address was by Mr. Williams, a well known attorney of Edwardsville. Wednesday the Boy Scouts gave the visiting soldiers a free dinner at the Mineral Springs Hotel and Y. M. C. A. rooms and on Thursday the local relief corps did the same. The camp fires and various features of the occasion were highly enjoyable.

Mr. and Mrs. P. Bonansinga were expected back last night from Springfield where they attended the funeral of Mr. Bonansinga's brother.
